

Eastport UK Case Study

Fendering

In October 2013, Fendercare Marine was awarded a substantial contract for Eastport UK, Norfolk's premier port. The contract further enhances our position as the world's largest operator of genuine Yokohama brand pneumatic fenders.

Who

Eastport UK

Summary

The contract, won against strong international competition, is for the supply of 17 Yokohama pneumatic fenders to be used at the Great Yarmouth port.

Products Provided

- Provision of 17 pieces of Yokohama pneumatic fenders measuring 2.0m x 3.5m complete with lorry tyre nets

Benefits Delivered

- Meeting extremely stringent technical requirements set by US Navy
- Provision of high quality fender products with zero defects (ISO 17357:2002)
- Service-led approach

"The new Yokohama fenders we have purchased from Fendercare Marine are a proven product and provide us with greater flexibility to cater for a range of different sized vessels, further enhancing the attractiveness and suitability of the outer harbour to our current and future customers."

Jamie Frater, CEO for Eastport UK
