James Fisher Subtech South Africa

Expertise for
the **extremes**

Equipped to support and transform every sector of the South African marine economy

At Subtech South Africa we've done so, repeatedly and successfully, since 1995 in some of the toughest operating conditions

About us

Subtech South Africa is a **51% black owned (30% black female owned)** South African marine services provider that specializes in **diving, survey, inspection and non-destructive testing, marine construction, and emergency response services.**

Subtech South Africa is a subsidiary of James Fisher and Sons plc, a leading provider of services, innovation and technology to the marine, oil & gas and other high assurance industries worldwide.

By leveraging our operational excellence, breadth of capability and the enthusiasm and commitment of our employees, Subtech South Africa has become a

trusted partner of major corporations, government bodies and other valued customers throughout South Africa.

With our extensive fleet of vessels, and equipment, combined with our world leading engineering and project management experience we have successfully completed the most challenging marine projects in South Africa.

We pride ourselves on the training and development of our employees to ensure we continue to transform the South African marine economy to deliver proudly South African solutions to our clients.
