

# Accumulator Pump

The Accumulator pump is a portable unit designed for the hydraulic opening and closing of hydraulic cutting equipment. This is especially advantageous in emergency situations where the cutter is required to operate with a fast reaction time.

## Key features:

- ATEX compliant
- CE Marked
- Air operated Hydraulic Pump
- Manual Handpump back up
- 2 x 4 way circuits available

Capacity	2 x 37 Litre (Accumulator)
Capacity	50 Litre (Hydarulic)
Max Pressure	4000 psi (276 bar)
Lifting	BS 7072 4 Leg Lifting Sling
Dimensions	1500L x 650W x 795H mm x Gr Wt 425kg
