

Orange Peel 85Te Grab

James Fisher Offshores 85Te Orange peel grab can be quickly and efficiently operated via deck controls/ diver control stand or ROV hot stab set up. The hydraulic system comes with a safety load valve that allows the grab to keep any load secure in case of hose/hydraulic failure. It comes with a manual bypass valve that can be ROV or diver operated to release the load once safely lowered again to the seabed.

Orange Peel 85Te Grab
